You left a year ago this Christmas and we're wondering
if you miss us
Don't know why you up and left and went away
The kids are lonely here without you, even wrote old
Santa about you
Please don't leave them all alone this Christmas day.

Don't you miss their arms around you? Do their
memories surround you?
Don't you know it's not their fault things are this way?
Why not show consideration to the ones whose heart
you're breaking?
Give them your gift of love this Christmas day.

If you could see their little faces, as round the tree they
take their places,
They're looking for the biggest gift of all
So why not show consideration to the ones whose heart
you're breaking?
Won't you beckon to our lonely Christmas call?...
