Sweet words were made to be spoken
And love was made for devotion
From says remain to be kept this is true
I was made for the blues.

Loving was made for the future
And fools were made for the losers
Happiness was made for someone and you
But I was made for the blues.

Yes I was made for the blues
But by now I'm gettin' you to the heartaches I have to
go through
Yesterday was made for tomorrow
And trouble was made just for sorrow
Loving was made for the future and you
But I was made for the blues.

I was made for the blues...
