(Pamela)

There's a place dear to me where I'm longing to be  
With my friends at the old country church  
Where with mother I went and our Sundays were spent  
With our friends at the old country church.

(Porter)

As a small country boy how my heart would leap with  
joy  
When I knelt at that old country church  
There was Jesus above and His wonderful love  
Saved my soul in the old country church.

(Both)

Precious years of memory  
Oh, what joy they bring to me  
How I long once more to be  
With my friends at the old country church.

--- Instrumental ---

(Pamela)

How I wish that today all the people would pray  
As they did at the old country church

(Porter)

If they'd only confess Jesus surely would bless  
As He did in that old country church.

(Both)

Precious years of memory  
Oh, what joy they bring to me  
How I long once more to be  
With my friends at the old country church.

How I long once more to be  
With my friends at the old country church...
