"Old Fashioned Singing"

Visit "[Old Fashioned Singing](#)" on MotoLyrics.com

I just love that good old gospel singing
I'll Fly Away's my favorite song
I just love that good old time religion
This old world has gone without it much too long.

Oh how, I love to sing and tell
When they ring those golden bells
And I just can't stand in one place
When they sing Amazing Grace.

I just love that good old country preaching
This old world has gone without it much too long.

Yes, I love them good old fashioned gathering
Where all of God's children came to pray
And oh how, I really miss those old brush arbors
How I wish we had more of these days today.

Oh how, I love to sing and tell
When they ring those golden bells
And I just can't stand in one place
When they sing Amazing Grace.

I just love that good old country singing
This old world has gone without it much too long...
