I wanna be with you
I can give you love that's true
Just believe the way I feel
I love you and I always will.

No one could take your place with me
Don't ever think of setting me free
Just believe the way I feel
I love you and I always will.
Please be my love.

--- Instrumental ---

No one can thrill me like you do
I've spent the lifetime loving you
Just believe the way I feel
I love you and I always will.

I think of you each day and night
I just wanna hold you tight
Just believe the way I feel
I love you and I always will.
Please be my love.

--- Instrumental ---

No one could take you place with me
Don't ever think of setting me free
Just believe the way I feel
I love you and I always will.

Please be my love.
Please be my love...
