I drink from cans then stack 'em in a pyramid so high
As a monument to how I feel since she told me
goodbye
I like my friends around me 'cause they all understand
Why I keep her momery buried beneath the pyramid of
cans.

Chorus:

The power of the pyramid I don't understand
It's a mystery that gets bigger with every empty can
I stack them high and watch them fall like a castle in
the sand
Then I drink one more and start another pyramid of
cans.

--- Instrumental ---

We use to come here often 'cause the band would play
our songs
Now I wonder if they wonder why I come in all alone
Lately I'm here every night, they think I'm the biggest
fan
But the power that's pulling me in here is the pyramid
of cans.

Chorus:

The power of the pyramid I don't understand
It's a mystery that gets bigger with every empty can
I stack them high and watch them fall like a castle in
the sand
Then I drink one more and start another pyramid of
cans.

I drink one more and start another pyramid of cans.
