Ooh ooh, see what God can do
Ooh ooh, see what God can do

It's late at night can't get no sleep
Wondering what's gonna be next for me
Your spirit calls but I've got my dreams
And the world out there it's like a mastery
And when I fear what lies ahead
That's when a voice inside me says

See what God can do
When you give yourself completely
Change you point of view, you will never be the same
See what God can do

It's the miracles in the everyday
kind word you take time to say
It's an open hand to a broken heart
It's hanging on when you don't know where to start
In every situation I'm going through
I'm going to keep my eyes open to

See what God can do
When you give yourself completely
Change you point of view, you will never be the same
See what God can do

It will give your life new meaning
If you want to see him move
Get on your knees and pray
See what God can do

When it feels impossible
For you to make it through
When all hope is gone
And there's nothing you can do
Don't give up now
Your just about to see what God can do, yeah

Ooh ooh, see what God can do
Ooh ooh, see what God can do

See what God can do
When you give yourself completely
Change you point of view, you will never be the same
See what God can do

It will give your life new meaning
If you want to see him move
Get on your knees and pray
See what God can do
