Take this job and shove it, I ain't working here no more
My woman done left and took all the reasons I was
working for
You better not try to stand in my way as I was walking
out the door
Take this job and shove it, I ain't working here no more.

I've been working in this factory from now on 15 years
All this time I watch my woman drowning in pool of
tears
I've seen a lot of good folks die and had a lot of bills to
pay
I give the shirt right off of my back I have the guts to
say.

Take this job and shove it, I ain't working here no more
My woman done left and took all the reasons I was
working for
You better not try to stand in my way as I was walking
out the door
Take this job and shove it, I ain't working here no more.

Well, that forman he's a raggedy dog and night boss
he's a fool
Got a brand new flattop haircut, Lord, he thinks he's
cool
One of these days I'm gonna grow my top and that
sucker he's gonna pay
Lord, I can't wait to see there faces when I get the
nerve to say.

Take this job and shove it, I ain't working here no more
My woman done left and took all the reasons I was
working for
You better not try to stand in my way as I was walking
out the door
Take this job and shove it, I ain't working here no more.

Take this job and shove it...
