You Don't know who I am  
But I know all about you  
I've come to talk to you tonight  
About the things I've seen you do.

I've come to set the record straight  
I've come to shine the light on you  
Let me introduce myself  
I'm the cold hard truth.

There is a woman we both know  
I think you know the one I mean  
She gave her heart and soul to you  
You gave her only broken dreams

You say your not the one to blame  
For all the heartaches she's been though  
I say you're nothing but a liar  
And I'm the cold hard truth.

All your life that's how it's been  
Lookin' out for number one  
Takin' more than you give  
Movin' on when you're done.

With her you could have had it all  
A family and love to last  
If you had any sense at all  
You'd go and beg her to come back.

Instrumental

You think that you're a real man  
But you're nothing but a fool  
The way you run away from love  
The way you try to play it cool

I'm gonna say this just one time  
Time is running out on you  
You best remember me my friend  
I am the cold hard truth.

You best remember me my friend  
I am the cold hard truth...
