"The Last Town I Painted"

Visit "[The Last Town I Painted](#)" on MotoLyrics.com

I came home the other night I've been out on a town
I searched talk through the house she was not around
I finally found her note it read this is goodbye to you
And that's the last town I painted and I painted it blue.

Now that I have lost her I don't want to live
I done all the takin' I didn't want to give
Time has come it's plain to see the devil must pay his
dues
And that's the last town I painted and I painted it blue.

--- Instrumental ---

I still go to the tavern that I went to before
I search for the fun I had it's not there anymore
If I could have her back again I know I would be true
'Cause the last town I painted, I painted it blue.

Now blue is not my favorite color cause it makes me
sad
Why I asked for all these blues when I'm usin' too much
red
I've got a lotta troubles no one to tell it to
'Cause the last town I painted, I painted it blue...
