A REAL CLOSE FRIEND

(George Jones - George Riddle)

© '63 Glad Music

(I think you know a real close friend of mine)

The girl that you described sounds so familiar

The one you say you've loved for quite some time

Are you sure there's no mistake for I have a feeling

That your real love's a real close friend of mine

Well I am glad we've had this little talk together

For at last I began to see the light

I've been spending many lonely nights here lately

All because of that real close friend of mine

(I think you know a real close friend of mine)

Well I'll bet she says each day her love grows stronger

And if you left she'd surely lose her mind

And if she ever makes you feel unwanted

Then I think you know a real close friend of mine

Yes I am glad we've had this little talk together...

All because of a real close friend of mine
