Tammy, did you ever
Not so much that you could notice
Well, could you estimate how many
Eight or nine
Well, will you do it anymore
I said as you walked out the door
Yeah, I just wonder did you ever
All the time.

Could I fix you one small
No, thanks I just had one
Then how about this ice cream
Well, that'll be just fine
Is there any special way
Aw no, what ever you say
I just wondered have you ever
All the time.

--- Instrumental ---

Does he look like
No, he's taller and more handsome
Well, is he as old
Oh no, he's young and in his prime
Does your mother know I'll bet
Oh no, I havn't told her yet
Well, I just wondered do you ever
All the time.

Just for old times sake
No, that would make it harder
Then how about
Well, are you sure that you don't mind
Hey, I know just the thing for us
Oh no, I'm afraid I'd a-missed my bus
I just wondered did you ever
All the time.

I just wondered did you ever
All the time.
