When the storm clouds gather and I'm losing my way
She stands right beside me she lights up my day
She's the one thing I found right in a world that's gone
wrong
She's the words and the music to the world's finest
song.

Chorus:

Lord let me keep her at least for a while
I promise I'll love her until I've walked my last mile
When your trumpets are sounding and you've played
my song
Don't send me no angels 'cause I've got my own.

--- Instrumental ---

She stayed with me thru the hard times that's still goin'
on
That old feeling between us it's still coming on strong
When my eyes close forever and my last breath is gone
Don't send me no angels 'cause I've got my own.

Chorus:

Lord, let me keep her at least for awhile
I promise I'll love her until I've walked my last mile
When your trumpets are sounding and you've played
my song
Don't send me no angels 'cause I've got my own.

Don't send me no angels 'cause I've got my own...
