In a bar room I'm standin' with a drink in my hand
Trying to hide from the world
Drink dulls my memory and so here I stand
I just lost my favorite girl.

I'll stay till I'm no longer able to stand
And drink till my head's in a whirl
I'm living the life of an ungodly man
I just lost my favorite girl.

Last call I heard the bartender say
Now I must go out in the world
With no place to go to here I can't stay
I just lost my favorite girl.

--- Instrumental ---

Last call I heard the bartender say
Now I must go out in the world
With no place to go to here I can't stay
I just lost my favorite girl...
