By now I guess she's wondering how I'm doing  
If it broke my heart when she told me goodbye  
Well, every night I sleep just like a baby  
I wake up every hour and cry.

I bet she don't think I'm going miss her  
Probably think she's always on my mind  
But every night I sleep just like a baby  
I wake up every hour and cry.

She believes that I can't live with out her  
And it hurts so bad sometimes I almost die  
Well, every night I sleep just like a baby  
I wake up every hour and cry.

--- Instrumental ---

(Spoken)

You know I'll bet way down deep  
That she thinks that I'll always love her  
And I'll bet she thinks I'll never love another  
No matter how hard I try.

(Sang)

'Cause every night I sleep just like a baby  
I wake up every hour and cry.

Lord, every night I sleep just like a little bitty baby  
I wake up every hour and cry...
