I WON'T LOVE YOU ANYMORE

(George Jones - James O'Gwynn)

© '62 Glad Music

Do you think I'll keep on waitin' for your love while you
keep date
Other fellows in this town that think you're free
I can't give something dear for nothing surely this time
I'm not bluffing
I won't love you any more than you love me
You like worldly ways and riches pretty clothes and
fancy stitches
And you think you're living best with all of these
But I know one thing for certain my old heart can't
stand this hurtin'
It's not right to love you more than you love me

I can't run around with everyone to play with you
So why must I be the one who's always so confused
This love affair is far from even and I believe in even
seven
I won't love you any more than you love me
It's not right to love you more than you love me
