(Both)

If we don't make it, we've sure got a lot to forget.

(George)

It's just an empty two room flat but I still dream
Two rooms of hope and the world full of love, praying
for better things

Our dreams came true but we are two, in silence here
we sit

(Both)

If we don't make it we've sure got a lot to forget.

(Tammy)

Back when I made a coat by hand your hand always
held mine

We only had one pair of shoes but that all we can wear
at a time

If all our years just end with tears, not one will I regret

(Both)

If we don't make it we've sure got a lot to forget.

We may not make it but it makes me stop and think
I remember what when water was all we could afford to
drink

And didn't have to hesitate to share our one last
cigarette

If we don't make it we've sure got a lot to forget.

If we don't make it we've sure got a lot to forget...
