The music from the honky tonk, the lonely songs they  
play  
Comin' through my window, 'cause I live not far away  
There tempting me to come back to the things we used  
to do  
But the honky tonks and lonely songs I left behind when  
I left you.

The nightlife with it's party's, that's you're style of  
being gay  
Although it meant I lost your love, I couldn't live that  
way  
I hope some day you'll think enough of me and try to  
change  
And come away from the honky tonk back into my arms  
again.

The nightlife with it's party's, that's you're style of  
being gay  
Although it meant I lost your love, I couldn't live that  
way  
I hope some day you'll think enough of me and try to  
change  
And come away from the honky tonk back into my arms  
again.

Oh won't you come away from the honky tonk back into  
my arms again?...
