

George Jones "It's A 10-33"

Visit "[It's A 10-33](#)" on [MotoLyrics.com](#)

We're traveling down the back roads, down the
highway filled with lights
With a CB for directions and our ears on day and night
Get Jesus on the airways so he can take command
We won't ever need a roadmap just His soul salvation
plan.

You don't have to tell your handle Jesus know just who
you are
Don't you worry about your output He's never very far
Let your heart be your transceiver, He'll answer every
need
If good buddy your 10-20 is somewhere down on your
knees.

It's a 10-33 let's get Jesus on the line.
Troubles will be over, He'll take all the breaks in times
We got to much conversation we need more soul
salvation
It's a 10-33 let's get Jesus on the line.

Don't sweat the county mounties or the big eye in the
sky
There's a bigger one that's watching you and you'll see
Him if you try
Just keep on modulating with Heaven on your mind
It's a 10-33 let's get Jesus on the line.

It's a 10-33 let's get Jesus on the line.
Our troubles will be over, He'll take all the breaks in
times
We got to much conversation we need more soul
salvation
It's a 10-33 let's get Jesus on the line.

It's a 10-33 let's get Jesus on the line...
