Seems like everyday your love for me is changin'
Either stay with me or leave me here behind
For one day it storms the next day it's fair weather
Make up your mind, let it rain or let it shine.

I want your love but I would rather lose you
Than to keep on having you just pass the time
Set me free or promiss me your love forever
Make up your mind, let it rain or let it shine.

I want your love but I would rather lose you
Than to keep on having you just pass the time
Set me free or promiss me your love forever
Make up your mind, let it rain or let it shine.

Make up your mind, let it rain or let it shine...
