Let's end it now, oh, lonesome life this heartaches  
I'm tired inside and this old heart could use a rest  
It might as well stop beatin' as far as she's concerned  
Inside I know there's not a chance that she'll return.

Rid yourself of me I beg old lonesome life  
And free me from all memories of her tonight  
Unchain my heart and let the world turn out the light  
Have pity on me please, oh, won't you lonesome life.

(Have pity on my please, oh, won't you lonesome life.)

Oh, lonesome life I've been through many things with  
you  
Like sleepless nights and broken dreams and love  
untrue  
You know I've served my purpose so let's do what's  
right  
And let me go from you I plead, oh, lonesome life.

If you tell from me I can't go on in life  
And dreaming from all memories of her tonight  
Unchain my heart and left the world turn out the light  
Have pity on me please, oh, won't you lonesome life.

(Have pity on me please, oh, won't you lonesome life...)
