Sweet words were made to be spoken  
And love was made for devotion  
From says remain to be kept this is true  
I was made for the blues.

Loving was made for the future  
And fools were made for the losers  
Happiness was made for someone and you  
But I was made for the blues.

Yes I was made for the blues  
But by now I'm gettin' you to the heartaches I have to  
go through  
Yesterday was made for tomorrow  
And trouble was made just for sorrow  
Loving was made for the future and you  
But I was made for the blues.

I was made for the blues...
