I loved my little darling, my sweet Imogene  
The girl of my heart and the girl of my dreams  
I dreamed of a day when she'd be mine alone  
To share all my hopes and to have for my own.

A cabin in a canyon, a hill with a view  
Castles in the air I've built just for two  
I love my little darling, my sweet Imogene  
The girl of my heart and the girl of my dreams.

--- Instrumental ---

I lost my little darling, my sweet Imogene  
The girl of my heart and the girl of my dreams  
Her eyes are like the dawn of a blue summer day  
Her face like a rose and her lips a bouquet.

The sun in the sky borrowed gold from her hair  
The birds were singin' because she was there  
I lost my little darlin', my sweet Imogene  
The girl of my heart and the girl of my dreams...
