

George Jones "One"

Visit "[One](#)" on MotoLyrics.com

T: If you want to hear a love song I could sing one

T: If you wanna feel the fire we could build one

G: If you need to catch a rainbow we could chase one

B: If you want to be together we could be one

B: One and one I've always heard adds up to two

B: But one and one is only one

B: Wwhen that one is me and you

G: If you believe in forevers we could start one

B: If you want to be together we could be one

T: Now you talk about tomorrows I can see one

T: There's no mountain we can't climb if we reach one

G: If you believe in forevers we could start one

B: If you want to be together we could be one

B: One and one I've always heard adds up to two

B: But one and one is only one

B: When that one is me and you

G: If you believe in forevers we could start one

B: If you want to be together we could be one

B: If you want to be together we could be one...
