Searching, I've spent a lifetime darling  
Searching, looking for someone like you  
Dreaming in all my dreams I dream that someday  
I'd find someone like you.

Other loves have come my way  
But they were not for me  
Tell me that you're here to stay  
Don't ever set me free.

'Cause I've been searching  
I've spent a lifetime darling searching  
Looking for someone just like you

Other loves have come my way  
But they were not for me  
Tell me that you're here to stay  
Don't ever set me free...
