"The Same Sweet Girl"

Visit "[The Same Sweet Girl](#)" on MotoLyrics.com

All the years have seemed so short since I have known
you

And the love I've shared with you I won't forget
And if we should ever reach a hundred years dear
You will be the same sweet girl as when we met

I'm so glad that I have found you little darling
In my heart I hold the sweetest memory
And each time I gaze into your eyes that's heaven
I can see the same sweet girl so dear to me

You will never have to live on just a promise
I will always be around you when you call
I will never share my kisses with another
Only with the same sweet girl my one and all

I'm so glad that I have found you little darling
