There's homeless on the streets of every city  
Big city crime in every little town  
There's people making money off of Jesus  
And taxes dragging everybody down.

There's politicians shredding up the truth  
And farmers getting pulled up by their roots  
And pushers telling little kids that highs the only way  
Welcome to the USA today.

It's true we've got our problems Lord knows we make  
mistakes  
And every time we solve one ten others take it's place  
But you don't see those refugees heading the other  
way  
Oh, welcome to the USA today.

--- Instrumental ---

Spoken:  
But you know there're a thousand of happy homes for  
ever homeless  
And opportunity still knocks on every door

Sang:  
Our younger generation's really shining  
Much brighter than they've ever shone before  
We've got the right to vote our leaders in  
And we've got the right to vote 'em out again  
And we're all free to speak our minds and not get  
locked away  
Welcome to the USA today.

It's true we've got our problems Lord knows we make  
mistakes  
And every time we solve one ten others take it's place  
But you don't see those refugees heading the other  
way  
Welcome to the USA today.

Oh, welcome to the USA today...
