The weatherman just said there's gonna be stormy
weather
I guess he's right I feel it in the air
He said it'll be sometimes before it gets any better
The way I feel I just don't even care.

The forecast on this love of ours don't look much better
'Cause lately we've been havin' troubled times
There ain't much chance in clearin' the chilly winds are
nearin'
There's trouble brewin' in this heart of mine.

'Cause I can see the clouds of doubt are hangin' low
overhead
And the hurricanes of jealousy are just around the
bend
Well, I can feel the rains of sadness fallin' on this heart
of mine
Only we can bring fair weather back and have love one
more time.

--- Instrumental ---

Well, I believe to my soul the weatherman is goin' crazy
'Cause I just felt a ray of warm sunshine
She just walked in and kissed me and said how much
she'd missed me
We're gonna have good weather one more time.

'Cause I can see the clouds of doubt no longer hang
overhead
And the hurricanes of jealousy have all come to an end
Well, the rain is gone and there's a rainbow in this
heart of mine
No more stormy weather now there's sunshine one
more time.

No more stormy weather now there's sunshine one
more time.
(Yeah...)
