"There's Power In Our Love"

Visit "[There's Power In Our Love](#)" on MotoLyrics.com

I can't thank you enough
For the happiness we've shared
I've never known a day
That sunshine wasn't there

I can't begin to tell you
The joy you bring to me
And as long as we're together
What more could there ever be?

'Cause there's power, power, power in our love
It's so strong that it controls us everyday
Yes, there's power, power, power in our love
And together we love living life this way

There is no challenge in this world
That we can't meet, today
For I've got you beside me
Hand in hand all the way

And when I go to sleep tonight
So satisfied, within
I know that when the morning comes
I'll be in love again

'Cause there's power, power, power in our love
It's so strong that it controls us everyday
Yes, there's power, power, power in our love
And together we love living life this way

Yes, there's power, power, power in our love
