"To Live On Love"

Visit "[To Live On Love](#)" on MotoLyrics.com

Don't the sun feel warm today
Don't our lives feel warm today
We have true love to be proud of

And we both understand it all
And neither one demands it all
'Cause we know how it feels to live on love

Don't the birds sing a lovely song
Don't our hearts sing a lovely song
There's only the good things to be thinking of

There's no trouble to be found
Strong enough to turn our world around
'Cause we know how it feels to live on love

Yes, we know how it feels just to wake up
In the morning and be together every day
And to know we've been as close as two hearts could
ever be
And there's more love on its way till it come to stay

Don't the wind feel good today
And don't our smile look good on our face
'Cause we know how it feels to live on love
Yes, we know how it feels to live on love
