VITAMINS L-O-V-E

(Sid KASSEL - George JONES)

Guitar intro

Now there ain't enough wrong with me that try a man
won't search
But I need a second time to make a love to church
There's nothing on the drugstore shop that would be
good for me
Because I need real vitamins like L O V and E

Vitamins A, B, C and D ain't what I really need
I'm searching for a little kiss I'm lovesick yes indeed
Here is what the Doctor argued so come along with me
Your pills all might for certain with LOV and E

Piano break
Steel guitar break
Guitar break

The doctor said I'm really damned but nothing he can
do
Whatever else my eye is tired it's all up to you
He said that I'm
Because I need real vitamins like L O V and E

Vitamins A, B, C and D are good for certain things
But when you buy a whiskey blues it needs a love
extreme
If you see my darlin' I help and I
Because I need real vitamins like L O V and E
Because I need real vitamins like L O V and E
