

George Jones "Walls Can Fall"

Visit "[Walls Can Fall](#)" on MotoLyrics.com

I once stood in the darkness I couldn't see a light
Backed up against the wall I built around my life
I'd run out of reasons to ever love again
But somehow you found a door and you came waltzin'
in.

Chorus:

Walls can fall, storms can end
Skys can clear, hearts can mend
All it took was your sweet love
To rise above it all
You can build 'em strong and tall,
But walls can fall.

--- Instrumental ---

Here we stand together with stones enough to build
A bridge into forever beyond the highest hill
The past will fade behind us if we let the future shine
Not a thing can come between us if we always keep in
mind, that.

Chorus:

Walls can fall, storms can end
Skys can clear, hearts can mend
All it took was your sweet love
To rise above it all
You can build 'em strong and tall,
But walls can fall.

You can build 'em strong and tall
But walls can fall...
