(Our love is a secret, we're watching our steps.)

We're watching our steps all the time, there's fire on  
the ground

(Fire on the ground)

We know of the danger of slipping around (slipping  
around)

We're watching our steps all the time, don't call him my  
name

Our love is a secret, our love is a shame.

(We're watching our steps.)

You knew not to hold me the way that you do  
I married your best friend, like sisters are you  
I tried not to kiss you, but your lips made me  
You married my best friend, like brothers to be.  
(We're watching our steps.)

We're watching our steps all the time, any day talk can  
start

We have a secret hidden deep in our hearts

We're watching our steps all the time, or there will be  
pain

Our love is a secret, our love is a shame.

(We're watching our steps.)

--- Instrumental ---

We're watching our steps all the time, there's fire on  
the ground

(Fire on the ground)

We know of the danger of slipping around (slipping  
around)

We're watching our steps all the time, don't call him my  
name

Our love is a secret, our love is a shame.

(We're watching our steps...)
