I wonder who'll turn out the lights
In your world tonight
Whose shoulder will your head
Be resting on?

Does your hungry arms be reach
For a man you feel you need
Will that need still be there
When he's gone.

As I reach for the switch
That turns out my lights
I wonder who'll turn out the lights
In your world tonight.

Has someone found the secret
That I couldn't find
Is he touching that old switch
That I've touched so many times.

Is he turnin' on the woman
I could never satisfy
I wonder who'll turn out the lights
In your world tonight?

--- Instrumental ---

Has someone found a secret
That I couldn't find
Is he touching that old switch
That I've touched so many times.

Is he turnin' on the woman
I could never satisfy
I wonder who'll turn out the lights
In your world tonight?
