I wish you only knew all the days I've made it through  
Because of you and your sweet love  
Wish that I could count the times peace and confidence  
filled my mind  
Because of you and your sweet love.

You're what keeps me going sun that lights my sky  
The rose that blooms in weather and the rain that's cool  
July  
Oh, never try to tell me that it wasn't God above  
That sent me you and your sweet love.

--- Instrumental ---

Almost every night it seems you come a-walking  
through my dreams  
Precious you and your sweet love  
And tonight though we're apart there's fullfillness in my  
heart  
Thanks to you and your sweet love.

You're the rock I cling to, the star I wish upon  
The water in my desert and the anchor in my storm  
Oh, never try to tell me that it wasn't God above  
That sent me you and your sweet love.

He sent me you and your sweet love...
