Well, you tell me that you care  
But now you're gone you got me cryin'  
No use denyin' you done me wrong  
If I could look inside your heart  
Maybe I could find the reason  
Why you are leavin' me all alone.

Well, you know it's not so when you say  
It's not well, you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby why  
You went and left me here so lonely  
I miss only, for I love you.

--- Instrumental ---

Did I ever make you sad so you'd be mad  
And love to hurt me  
And desert me for so long  
Well, you're telling everyone what you done  
You think it's funny  
Well, listen honey, you done me wrong.

Well you know it's not so when you say  
It's not well you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby why  
You went and left me here so lonely  
I miss only, for I love you.

--- Instrumental ---

Well you know it's not so when you say  
It's not well you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby why  
You went and left me here so lonely  
I miss only, for I love you.
