There's no one who could ever love me like you loved me

I remember how it used to be

There was no stronger love

And now I can't believe I was only too blind to see

That your love is inside of me

And now I don't have anything at all

Every night I think as time just passes by

Why I left your love and how it made me cry

Now that I found out, don't know what to do

My life feels so empty, so empty alone without you

Without you, without you

I don't know what I'll do without you girl

Without you my love is in your hands

There's nothin' left to live for

There's nothin' left to do without you

Every night there I sleep, I sleep with a fantasy

That your here, it's just you and me

Just like it always was

But then I'm left to see that it was only a memory

And what's left is for me to be

Alone without your love

Every night I think as time just passes by

Why I left your love and how it made me cry

Now that I found out, don't know what to do

My life feels so empty, so empty alone without you

Without you, without you

I don't know what I'll do without you girl

Without you my love is in your hands

There's nothin' left to live for

There's nothin' left to do without you

Without you, without you

I don't know what I'll do without you girl

Without you my love is in your hands

I need you, I want you

Can't live without your love

Without you, without you
I don't know what I'll do without you girl
Without you my love is in your hands
There's nothin' left to live for
There's nothin' left to do without you

Without you, without you
I don't know what I'll do without you girl
Without you my love is in your hands
I need you, I want you
Can't live without your love
Can't live without your love

Without you my love is in your hands
There's nothin' left to live for
There's nothin' left to do without you
Without you my love is in your hands
