You say shut your mouth and suck me
Can't you see I light up your weekend baby
Who needs sleep look no one's fading

You say watch your back cause I'll fuck you back
someday
All those one track minds in the same sex kind of club
In the capital city of love

Don't let your heart or your head interfere
The same thing applies if you're poor or you're queer
Cause face it with me you'll be both in the year or two

Cause I show you just what you want
And I show you just how to get it, get it
And baby the stuff that makes this guy feel like
Every other lover in the world
Now sing it

Every other lover in the world
Now sing it
Every other lover
Every other lover in the world
Every other lover in the world
Now sing it
Every other lover
Every mother fucker in the world
Every mother fucker in the world

Boys come
Boys go
Boys go
I can't see the love for smoke
I can't see the love for smoke

You say what's the matter don't you trust me
Because I'm the gift that keeps on giving
I love you when others say you're living bad
But I can show you things that they never have
So all those one track minds well it turns out that
they're in luck

In the capital city of cock

Don't let your heart or your head interfere
The same thing applies if you're poor or you're queer
Stick with me kid you'll be both in the year or two

Cause I show you just what you want
And I show you just how to get it, get it
And baby the stuff that makes this guy feel like
Every other lover in the world
