I know it's been sometime since I last seen you
We ended on such bad terms
Yes, your name has crossed my mind
Just wish you were here all the time
Looking so hot it burns
Whose got my girl? Whose got my world?
'Cause I want you back

I miss picking up the phone and hearing your voice
I miss reaching for your hand and feeling your
fingertips
I miss you, is that okay?
I miss you being my lady
I miss you, miss you, miss you, miss you...

I know it's been sometime since I last seen you
Went our separate ways
But girl, it's killing me to see you with him
Want you back in my life
Whose got my girl? Whose got my world?
'Cause I want you back

I miss picking up the phone and hearing your voice
I miss reaching for your hand and feeling your
fingertips
I miss you, is that okay?
I miss you being my lady
I miss you, miss you, miss you, miss you...
