There she is in the club on a Friday night
(With her back up against the wall)
Somethin' about this girl I can't describe
(But I know that I want it)
In the crowd, in a room she stands alone
(With her back up against the wall)
With eyes like I have ever known... yes

She knows that I'm watchin'
'Cause right by I'm walkin'
Every five minutes it's a second guess
She knows how I'm doing
No mystery to it
I try to look away, but...

Can't stop girl with that somethin' sweet
Lips like sugar and she's eyein' me
Somethin's goin' down now
Somethin' somethin' now
Can't stop girl with that somethin' fun
Ain't gon stop 'til that somethin's mine
Step up baby please and
Drop that somethin' somethin' on me

Clap your hands baby girl if you feel right
'Cause you know we're gonna rock through the whole
night
Clap your hands baby girl if you feel right
Does it feel right? Yeeeah

Gotta see this girl with your own two eyes
(With her back up against the wall)
It's the way she moves from side to side
(She got me hypnotized)
It's hard to focus, not to notice
(When her back's up against the wall)
She's fallin' up on me
Yeah you know that's cool with me 'cause...

She knows that I'm watchin'
'Cause right by I'm walkin'
Every five minutes it's a second guess

She knows how I'm doing
No mystery to it
I'm tryin' to look away, but...

Can't stop girl with that somethin' sweet
Lips like sugar and she's eyein' me
Somethin's goin' down now
Somethin' somethin' now
Can't stop girl with that somethin' fun
Ain't gon stop 'til that somethin's mine
Step up baby please and
Drop that somethin' somethin' on me

You wanna know what she's like?
Okay... she was like this...
She's like boom boom boom boom
She's like d-ow d-ow d-ow n-ow n-ow
She's like Bah-bah-dah-bah-dah-bah
She's like... Ohhhhh GEORGE!
Y'zir!

Can't stop girl with that somethin' sweet
Lips like sugar and she's eyein' me
Somethin's going down now
Somethin' somethin' now
Can't stop girl with that somethin' fun
Ain't gon stop 'til that somethin's mine
Step up baby please and
Drop that somethin' somethin'... (on me) [x2]

Drop that somethin' somethin' on me
