1 2 3

In the place to be
And it is plain to see
That we are
The fresh grooving
The body moving
The record making
And the record breaking

And it goes a little something like this

everybody dance now

Don't just feel the heat
Let your body do the moving
See you working more and more
Get up on the dancefloor
Bring it on just like before
Let your body do the talking
See you working more and more
Get up on the dancefloor

Right listen
This needs some serious attention
I know ur trying to see through my attention
So stop
Cus I'm not here to entertain you
Your cruising top of my tonights menu
Girls going wild boys kicking cool
What happens in the room stays in the room

This is new milenium
Didn't I tell you
The beat is about to blow off the venue
Follow my foot steps
Don't loose the roots
Now the streets in my heart
It takes all the rules

I'm here to convert you
Show you my mission
Dj pleads you dance for religion

Don't just feel the heat
Let your body do the moving
See you working more and more
Get up on the dancefloor
Bring it on just like before
Let your body do the talking
See you working more and more
Get up on the dancefloor

Let your body do the talking
See you working more and more
Get up on the dancefloor

Don't just feel the heat
Let your body do the moving
See you working more and more
Get up on the dancefloor
Bring it on just like before
Let your body do the talking
See you working more and more
