Every night I say a prayer
That I'll wake up to find u in my arms
Sentimental fool am I
To think that you'll come back
Oh I

I hold my head up high
And find these tears I cry
Baby no-one knows
Way I feel inside
I tho't we were for life
How was I to know?

Girl I thought we found a place
Now all that's left is love
I can't erase
All I ever needed was you
and I , I taste your kiss upon my lips
but it won't last,
time has past
and now
Alone again without you
Oh
Cause you took my heart
And tore it all apart
How was I to know

I just miss you so
Oh baby how was I to know
To know

(instrumental *ad lib*)

Oh and I

Love takes hold of you
There's nothing, nothing you can't do
Baby no-one knows
I thought we were for life
