I told you I was leaving
At least a hundred times
But you always laughed out loud
Laughed until you cried

Cause I was always waiting on the other side of the
door
To welcome dysfunction back home
Until today, when I looked in the mirror and I didn't
know my own name
I'm leaving tonight; I'll turn out the light

CHORUS

Ain't it funny how the darkness makes everything seem
oh so clearly
When your own the ground face down how you can see
everything oh so differently
You won't even notice, that I'm gone
Till you wake up and you are all alone
Then you'll point fingers
Casue your the ultimate deceiver

No way no how... Will I take you back
And you will not black mail me with your hypocrisy
Your the perfect contradiction of yourself Jekyll and
Hyde
You have no control this time
I'm leaving tonight... I'll turn out the light

CHORUS

Ain't it funny how the darkness makes everything seem
oh so clearly
When you're on the ground face down how you can see
everything oh so differently
You won't even notice, that I'm gone
Till you wake up and you are all alone
Then you'll point fingers
Casue your the ultimate deceiver

Egotistical manipulator you've always been the
instigator of my moods

Now the sky is falling you'll come crawling back telling
me how you can change your tune
But I don't want you to
You won't even notice that I'm gone
Till you wake up and your all alone
Then you'll point fingers
Casue your the ultimate deceiver
Then you'll point fingers
Casue your the ultimate deceiver
