"Cowtown"

Visit "[Cowtown](#)" on MotoLyrics.com

Come on along and we'll go down to a place in Texas
called Cowtown
You'll never meet a stranger there everybody knows if
you're in town
They'll greet you with a smile and howdy how you all
In just a little while you'll get that Texas drawl
Their hats're white and boots're brown you'll just love
this place called Cowtown
[guitar - steel]
No matter where I may wander no matter where I may
roam
There's a place way down yonder I'm goin' there and
make it my home
Come on along and we'll go down...
You'll just love this place called Cowtown
