Ain't love a strain?
Ain't it a pain in your heart?
Ain't worth the trouble anyhow
I'd like to give it up
I've had enough and I've done my part

But I'm in too deep to pull out now

Good things we've had are goin' bad
And I don't know why
I'd turn it around if I knew how
I'm pushin' aside all of my pride and it's worth a try

'Cause I'm in too deep to pull out now

We need to get our love back on it's feet again
We've come too far to let it come to an end

What can I do?
I'm in to you up over my heart
And I've tried all that I know how
Doin' all I can
And I can't stand to see us fall apart

And I'm in too deep to pull out now

We need to get our love back on it's feet again
We've come to far to let it come to an end

Can't step aside and let you
Slide right out of my life
It will cause more hurt than the law will allow
I'll get us back on the track
And it'll be all right

'Cause I'm in too deep to pull out now
'Cause I'm in too deep to pull out now
