So upset  
Nervous wreck  
I can't believe she said goodbye  
Sit and smoke  
Cry and joke  
About these tears in my eyes

Chorus:  
How could you do what you gone and done to me  
I wouldn't treat a dog the way you treated me  
But that's what I get  
I've come to expect it from you

A million times  
A million lines and I bought 'em every one  
You don't care  
You rip and tear every dream I've counted on  
I guess I should thank my unlucky stars  
That I'm alive  
And you're the way you are  
But that's what I get  
I've come to expect it from you

Chorus

I could raise hell  
But what the hell it wouldn't do a bit of good  
I can leave  
My heart agrees it seems to think that I should  
There won't be no more next time doing me wrong  
You'll come back this time to find that I'm gone

But that's what you get  
You should expect that from me  
That's what I get  
I've come to expect it from you.
