It's never over
'Til it's really over
And someone's left standing behind

It goes without sayin'
It's too late for stayin'
And leavin's been comin' for a long, long, long time

I packed up my suitcase
And started my pickup
So many times in my mind

It's a hard road to travel
From blacktop to gravel
And the next hill is the hardest, I'll climb

I've got all the answers
For most of the questions
And some ain't been easy to find

There's no more erasin'
Things I've been facin'
And leavin's been comin' for a long, long, long time

I packed up my suitcase
And started my pickup
So many times in my mind

It's a hard road to travel
From blacktop to gravel
And the next hill is the hardest, I'll climb

And leavin's been comin' for a long, long, long time
