Well honey don't you worry
I don't need no ballroom queens
Though I'll admit she sure knows
How to fill a pair of jeans
And I'll admit now darlin'
She sure showin' me her stuff
But honey it ain't nearly enough

'Cause I ain't never seen her
Patch a pair of ragged britches
Stretch a paycheck 'til it reaches
Scratch my back right where it itches
And I ain't never seen that and honey 'til I do
My heart won't wander very far from you

Now honey you know I honor
All the hard times we've been through
I never could have made it with anyone but you
And I think I know when a lady is really really tough
But she don't show me nearly enough

'Cause I ain't never seen her
Stay up all night with the baby
Calm me down when I get crazy
Fix me grits and red eyed gravy
And I ain't never seen that and honey 'til I do
My heart won't wander very far from you

No I ain't never seen her
Make a six room house a castle
Teach the young ones how to wrestle
Straighten out my fish and tackle
And I ain't never seen that and honey 'til I do
My heart won't wander very far from you

No I ain't never seen that and honey 'til I do
My heart won't wander very far from you
