When you see me shooting star in the night  
When you hear the warm wind whisper through the  
pines

I want you to know  
It'll be me and my infinite love for you  
It's just like I promised you under heaven above  
It will live on long after we kiss goodbye  
Forever by your side, my infinite love

When you think someone is callin' out your name  
When you feel that kind of feelin' you can't explain

Now you will know  
It'll be me and my infinite love for you  
It's just like I promised you under heaven above  
It will live on long after we kiss goodbye  
Forever by your side, my infinite love

I want you to know  
It'll be me and my infinite love for you  
It's just like I promised you under heaven above  
It will live on long after we kiss goodbye  
Forever by your side, my infinite love

My infinite love, my infinite love
