Someone's walking 'round upstairs, I can hear him
And he just got up from sleeping in our bed
When I will wake up and realize I was dreamin'
But even when I'm strong awake
I can't get it out my head

'Cause I know someone's goin' to take my place
And walk up that ol' stairway
To the room where I walked out on you
Please understand, I couldn't stay
I see a two story house with someone new
Warming up my bed
Someone walking 'round up stairs
And I cant get it out of my head

--- Instrumental ---

'Cause I know someone's going to take my place
And walk up that ol' stairway
To the room where I walked out on you
Please understand I couldn't stay
I see a two story house with someone new
Warming up my bed
Someone's walking around upstairs
And I cant get it out of my head

Someone's walking around upstairs
And I cant get it out of my head...
